Adaptive Pickleball aspires to change lives.

In 2025, APB will have hosted over 120 Play Days and proudly served 1,250 individuals. Our player community is about 60% special needs, 25% physical needs, and 15% military veterans.

“Thanks to Adaptive Pickleball, our daughter with Down Syndrome is finding success on the court. From day one, she has been welcomed with acceptance, patience and true enthusiasm. Watching her light up as she learns new skills and forms connections has confirmed that she has found true inclusion and belonging.”

“Gary, a military veteran, was homebound, struggling with fear, depression, and anxiety. Then, he discovered Adaptive Pickleball. Through playing pickleball, Gary not only regained his confidence but also rediscovered joy, camaraderie, and purpose. Gary told us, “Adaptive Pickleball didn’t just give me a sport—it gave me hope and changed my life.”

“APB isn’t just about pickleball — it’s about setting an example. Together, we are making a powerful statement that inclusion can and should extend to all sports and activities, inspiring communities far beyond Upstate South Carolina.”
